effortless entertaining

Hostess[™]

Hostess™

“How is it that some people are able to make entertaining seem so effortless? One minute they're enjoying a glass of wine with their guests and the next they're magically conjuring up an array of stunning dishes that are beautifully presented and piping hot.”

It doesn't seem fair does it? Well, there may be some consolation, because these seemingly perfect hosts may have a little secret...”

Hostess – for food that's perfectly timed, every time

With a Hostess you can prepare food for up to eight people in advance and keep it at the perfect temperature until your guests are ready to eat. It will take care of everything – starters, sides, mains and desserts – making sure they stay temptingly hot and fresh for up to 4 hours.

Making every occasion a special occasion

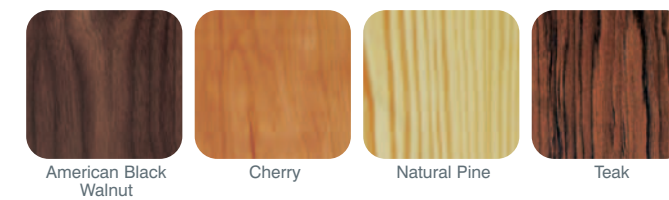

Whilst Hostess are lifesavers when it comes to entertaining, you don't need to get out the best china to appreciate the benefits. Planning a BBQ? Prepare the potatoes and corn on the cob in advance, and put them in the Hostess until the sausages are ready. Fancy a lazy night in front of the TV with a takeaway? Your Hostess will keep that Dim Sum warm as long as you like so you can pick away until bedtime.

A selection of stylish, understated designs

When you're entertaining, we think you should be the centre of attention. This is why we offer a range of designs to ensure your Hostess will fit seamlessly with the style of your kitchen or dining room. From traditional wood to modern brushed steel, a Hostess is at home in any setting. Simply see the chart on pages 14 & 15 for the finishes available for each design.

Range of finishes

Each Hostess design is available in a range of stylish finishes to really complement your home, from cool, contemporary brushed stainless steel to rich real wood veneers that are crafted with timber hand-selected for each individual unit.

“Good food tastes even better when it is well presented, so don't save that china for best – you can use ovenproof tableware with your Hostess instead of the Pyrex dishes we supply.”

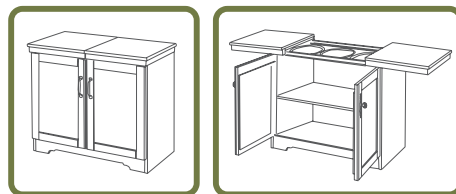

Please note:
While every effort has been made to ensure accuracy, wood is a natural material and so the grain and colour of the veneer may differ from the samples shown.

Gourmet | Real wood veneer

Featured product:
HL6244AW American Black Walnut

“There's nothing better than sitting around the dinner table and catching up with your family after a long day. If only life didn't get in the way... With a Hostess, you can make sure everyone gets a delicious hot meal, no matter what time they get home.”

A room-enhancing, traditional design that offers real functionality. Available in nine sumptuous finishes, the Gourmet is guaranteed to impress.

HL6244TK Teak

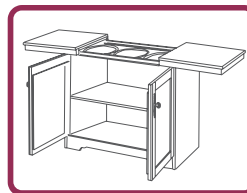

Gourmet | Real wood veneer further options

Featured product:
HL6240CM Curl Mahogany

“Planning a dinner party is an altogether more enjoyable affair when you're not worrying about whether the slow-roasted lemon & garlic chicken will be cremated before your friends have finished their smoked salmon roulade...”

As these additional options show, the Gourmet offers a wealth of choice. Its neat look and understated presence makes it the ideal companion for any occasion.

Maestro | Wood effect laminate

Featured product:
HL6236LO Limed Oak

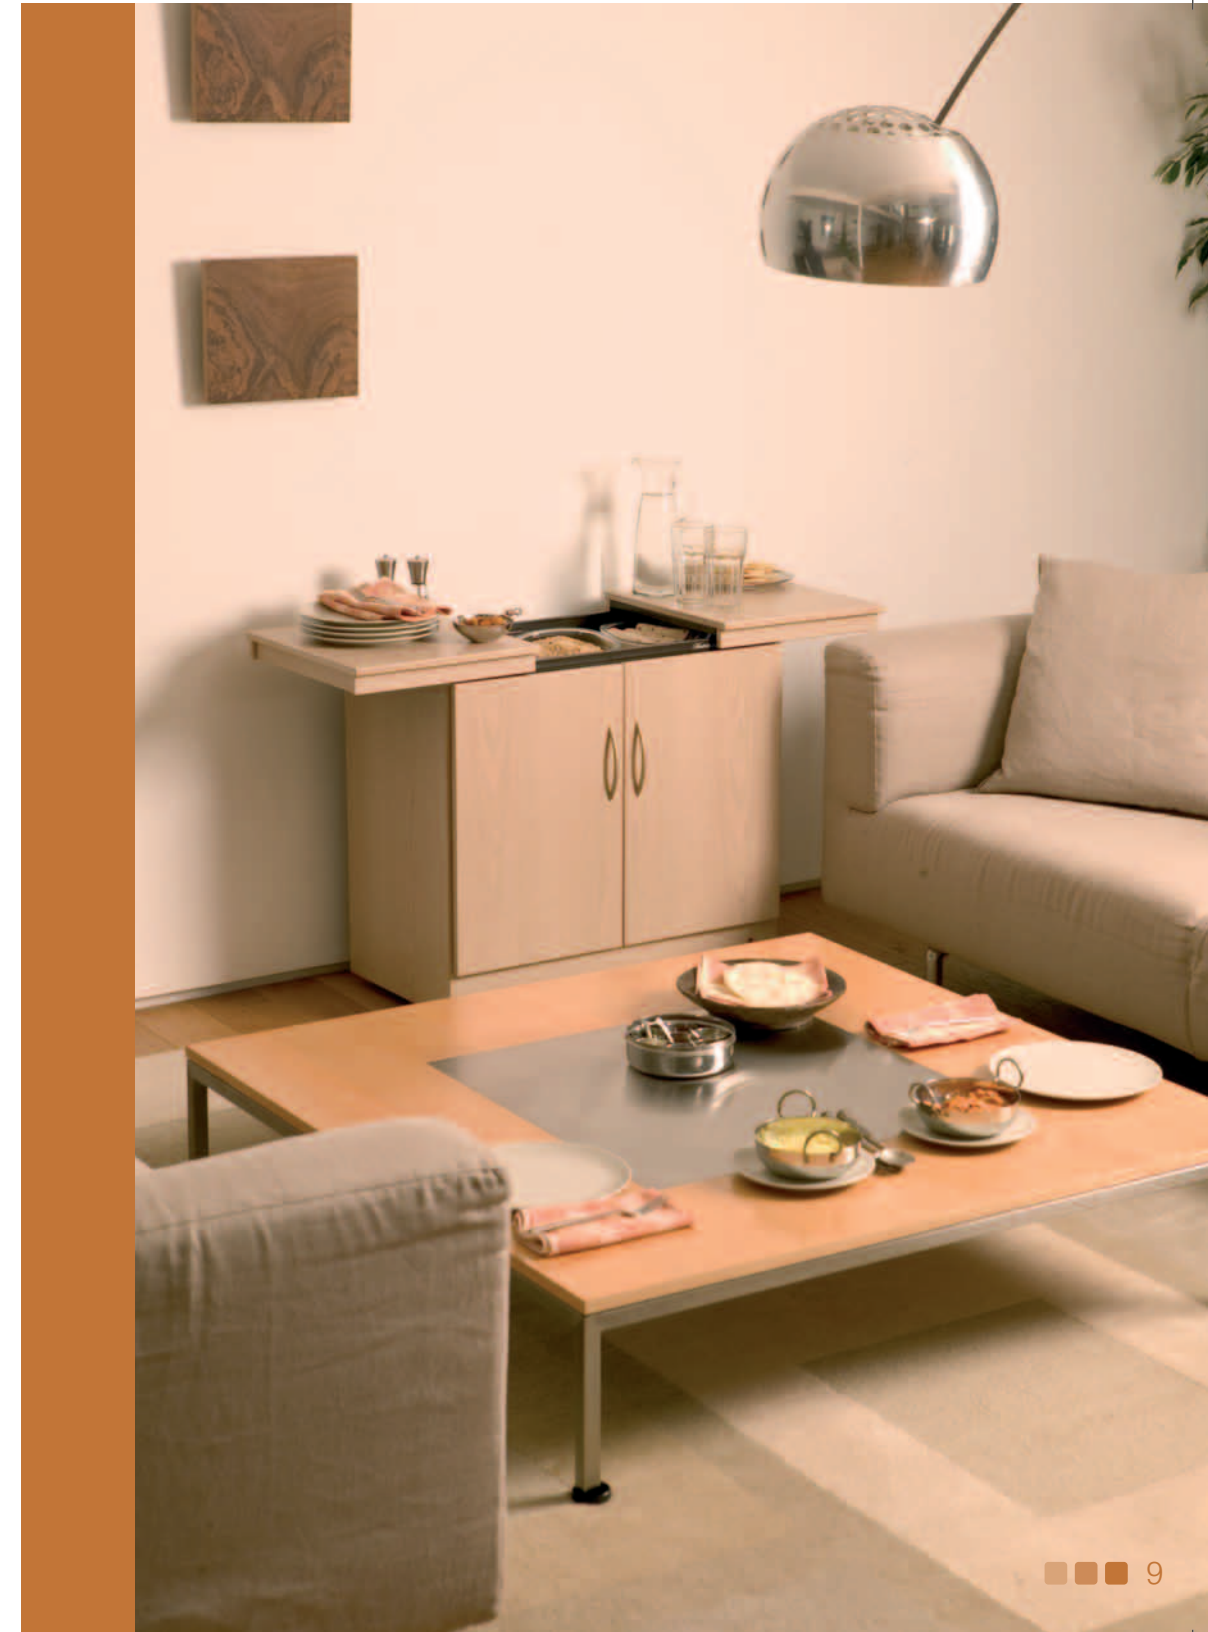

“It's harder to enjoy your meal when you know the pans waiting in your kitchen are becoming ever more acquainted with the dried on food... Preparing your meal early means you can get the chores out of the way before you relax.”

Simple clean lines and a contemporary style make the Maestro the obvious choice for a modern home or loft apartment.

Connoisseur | Metal & Wood effect

Featured product:
HL6232BS Brushed Stainless Steel

“One-pot feasts like chilli con carne, stews and casseroles really benefit from being cooked then kept on a low heat to simmer gently in their juices – a Hostess will really bring out those flavours.”

Serve every dish effortlessly with a little help from the Connoisseur. Available in a choice of stylish finishes, it will look at home in any setting.
